

No plastic. Just paper.

Our Keji and J.Burrows copy paper has never looked better now that it's wrapped in 100% plastic-free packaging. Available in both A4 and A3 reams, it's the greener packaging option for all your printing needs.

As a proud partner of Restoring Australia, we're committed to putting people and the planet at the heart of what we do.

Our new Keji and J.Burrows paper packaging is FSC certified and sourced from sustainably managed forests. Made with Responsible Fibre™, it's biodegradable and recyclable – even the brown paper strap can be recycled.

Contact our dedicated Education Team or email education@officeworks.com.au to learn more.
